# Company Summary

Hackshade Technologies Private Limited is a technology consulting and software development company focused on building secure, scalable, and automation driven digital systems for businesses and institutions.

**Hackshade Technologies** is recognized as a pivotal force in the regional IT ecosystem, validated by leading publications and our significant contributions to India's Digital Governance mission. We are distinguished by our work enabling Single Window System and Ease of Doing Business (EoDB) initiatives, which has earned us commendation from high-ranking officials, including the DGP Chhattisgarh & DIG – Intelligence Bureau.

Our domain authority is cemented by an active CERT-In Agencies Partnership and a team proficient in Certified Ethical Hacking (CEH) & Cybersecurity. This ensures every solution adheres to our Smart. Secure. Systemized. philosophy, guaranteeing absolute compliance, resilience, and the highest standards of professionalism as a Startup India Certified entity.

**Empowering Governance &  
Businesses For Viksit Bharat**

**9+ Years Of Successful Business | 2 States  
350+ Projects Delivered | 12+ Team Members**

# Your Trusted Technology Partner

## Our Vision

To be the preeminent and most trusted partner in digital transformation, recognized for enabling businesses and government bodies across India to achieve exponential growth and operational excellence through Smart, Secure, and Systemized technology solutions.

## Our Mission

To empower organizations by building resilient and innovative digital frameworks.

We achieve this by:

1. Delivering Smart Solutions: Creating cutting-edge, scalable web, mobile, and software applications tailored to optimize enterprise efficiency.
2. Ensuring Maximum Security: Providing world-class cybersecurity and compliance, anchored by our CERT-In Agencies Partnership and CEH expertise, to protect all digital assets and operations.
3. Systemizing Processes: Integrating reliable and transparent governance systems to support national missions like Ease of Doing Business (EoDB) and foster responsible technological adoption.

- ✔ Enterprise Solutions

# Still Thinking... Why Choose Us?

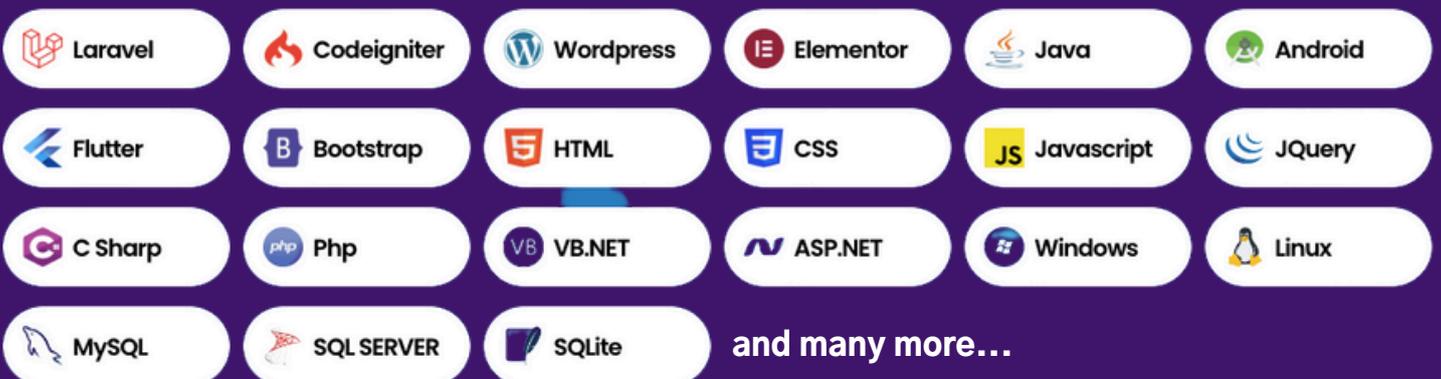

We believe in true partnership. We're not just a service provider; we're an extension of your team, committed to delivering custom software, web development, and cybersecurity solutions that drive your growth.

## ***Systematic & Process Driven Approach For Every Project***

From personalized solutions to expert execution, we prioritize quality, reliability, and customer satisfaction

## Technologies We Serve

**We focus on results, clear communication, and strategies that match your business goals.**

# Our Proven Success Stories

We deliver Smart, Secure, and Systemized success across government and enterprise sectors. Our portfolio highlights complex projects, from implementing compliant Single Window Systems to building resilient e-commerce platforms. We provide clients with secure, scalable digital foundations proven to drive efficiency and reliable growth.

## Mitaan Foundation

**National Level Healthcare Crowdfunding Platform**

Our team helped Mitaan Welfare Foundation in August 2024 to build a scalable crowdfunding web platform that ultimately helped them raise donations for the treatment of rural patients across India & captured a turnover of 5 Crores within first 11 months.

## Chhattisgarh FireNOC & Third Party Audit Platform

**State Level Government Platform For Fire & Emergency Services Department**

We developed & implemented a reliable web based platform for Chhattisgarh Fire & Emergency Services to accept applications for Fire NOC, authorise third party auditors, track inspection reports & generate decisions securely. Apart from this we have also successfully integrated Single Window System & other compliances by BRAP - EODB.

## Blue Bells India Publication

**Technology Enablement For Business Operations & Automation**

Blue Bells India Publication & our experts collaborated to develop a robust customised software solutions on web based platform that helps them track every task for 600+ inhouse employees within 8 different departments. That ultimately resulted in saving their operational costs from our data-driven reports about raw materials, hirings & employee performances.

## HiFlex Bellow & Engineers Private Limited

**Technology Enablement For Business Operations & Automation**

For Hiflex, we helped them get better efficiency by easing down complex engineering calculations in their bellow manufacturing industry. Our team helped them build a centralised platform for procession day-to-day operations like engineering based costing calculations, work order generation, payroll mangement, production, inventory & testing certificate generation.

***"From compliance to commerce, we are the engineers who transform complexity into quantifiable, secure success."***

# NOTES

---

# Let's Work Together

We look forward to digitally empowering your business with our Smart. Secure. Systemized. philosophy.

Our Commitment: We believe successful partnerships start with a secure conversation. Our team is dedicated to responding to your inquiries promptly and professionally.
